## What strategies does the fund pursue

### In what does the fund invest

The fund invests in properties in easily accessible locations in Switzerland<sup>1</sup> with a focus on office and commercial use. It also invests in mixed-use properties with residential and commercial components.

### Why a growth strategy

We expect strong economic growth in the mid-term and an increase in demand for space. Commercial property in economically strong locations is undervalued in our view. Compared to prime locations, the yield differential is too high. We are therefore pursuing a value-oriented growth strategy with a clear focus on optimizing the existing portfolio and diversifying by acquiring high-quality individual properties. Here we see potential for earnings and value growth in the long term.

### A consistent financing strategy

The fund's regulatory low debt financing ratio allows it to strategically focus on and benefit from lower short-term interest rates. Historically, short-term interest rates have been lower on average than long-term rates, but slightly more volatile.

<sup>1</sup> See map chart on page 5, according to the Federal Office for Statistics.

## What are the long-term goals

### What are the investment objectives

The long-term target return should be around 6% above the 10-year bonds of the Swiss Confederation. Furthermore, the Fund management company aims for a sustainable distribution of profits of around CHF 5 per Fund unit.

### What sustainability goals does the fund pursue

All properties are to be certified with a recognized certification system by 2032. Where economically viable, sustainable renovation measures will be implemented. The fund portfolio is to be climate-neutral by 2050.

### What is the focus of the cost policy

The fund generates attractive returns on investment with an above-average TER. For this very reason, the fund management company pursues disciplined cost management with the aim of keeping the TER<sub>REF</sub> GAV in the range of 0.85% to 0.90%.

### What is the target fund size over the long term

The ideal portfolio size is around CHF 1.5 billion, mainly distributed among properties in German- and French-speaking Switzerland.

## What are the key priorities

### 1. To ensure a sustainable return on investment

The main focus is on exploiting potential in existing properties by letting, revitalizing, refurbishing and extending existing leases. Furthermore, by acquiring well-rented and well-maintained properties with affordable rents.

### 2. Ensure sustainability

Implementation of the sustainability strategy for the portfolio and certification of all properties, as well as publication of the first GRESB benchmark by 2026.

### 3. Expansion of the portfolio

With a view to the capital market and in the event of attractive purchase opportunities, the portfolio is to be further expanded with high-quality properties. Usages such as office and commercial, as well as mixed-use properties are in the foreground. Further growth steps will be examined on an ongoing basis.

Reasons for Real Estate Funds

- Predictable and safe Returns**  
Real estate funds generate attractive long-term investment and distribution yields that are above the average of other asset classes. A profitable investment opportunity - especially in times of low interest rates.
- Stable Swiss Real Assets**  
Real estate funds invest in properties. They often provide the necessary stability to a balanced and diversified asset portfolio. The correlation to other asset classes is low, as is the volatility.
- High stability**  
Broadly diversified thanks to distribution across a large number of properties. Stable and secure revenues due to conservative leverage and low vacancy rates.
- Inflation protection**  
Real estate funds largely protect against inflation. If interest rates rise, rental income tends to rise as well.
- Investor-friendly and tradable**  
Real estate funds are transparent and open to public investors as well as qualified investors. You can purchase units at all Swiss banks. The funds are subject to the strict supervision of FINMA.
